## Professional Profile

Junior Front-End Developer with a strong foundation in modern JavaScript frameworks and a focus on building clean, responsive, and user-friendly interfaces. After more than 10 years in music education, I transitioned into web development, bringing creativity, discipline, and strong communication skills into technical problem-solving. Comfortable working in team environments, following design systems, and continuously learning new technologies. Actively seeking junior or entry-level roles in Greece or remote.

## Professional Experience

**Guitar & Music Educator** — Various Schools, Athens (2009 – Present)

- Designed and delivered structured learning programs for children and adults.
- Developed strong communication, feedback, and collaboration skills.
- Applied creativity, consistency, and problem-solving skills now used in front-end development.

## Education & Training

**Front-End Web Development (Self-Taught)** — Online Courses & Personal Projects (Udemy, 2023 – Present)

- HTML5, CSS3, JavaScript (ES6+)
- React.js and Next.js fundamentals and project-based development
- React Native for mobile application development
- Component-based architecture, responsive design, and Git workflows

## Selected Projects

**Guitar Study Hub** — React Native mobile application for guitar students preparing for graded electric guitar exams.

Features include interactive fretboard diagrams, scales, chords, arpeggios, rhythm guitar examples, lead guitar guidance, backing tracks, aural tests, and theory quizzes.
